

# MediaPulse 2022

## Enhanced User Experience, MediaPulse Managed Cloud, Personnel Management and Hundreds of New Features

The 2022 release of MediaPulse is the most significant update in over thirty-year history of innovation. There are hundreds of new features with a focus on three critical areas: a consume grade user experience, amazing cloud performance and automatic resources selection and capacity planning.

The User Interface is completely redesigned to support everyone from power users, to light touch users as well as providing a portal experience for your freelancers, vendors and clients. MediaPulse now has a beautiful, intuitive interface for every user, every workflow and every task.

For our current ScheduALL clients, please contact your support representative for a complete release log and upgrade services information.
