

MediaPulse Integration

Tying MediaPulse to Your Systems Infrastructure Has Never Been Easier

MediaPulse Fuse has a comprehensive integration portfolio including APIs, Event Triggers, Workflows, Facades and Adapters.

APIs and Facades

All MediaPulse data elements are accessible through the API and Facades simplify the work of complex data exchange while exposing core functionality.

Event Triggers and Workflows

APIs are only part of the equation. Data is easily and automatically extracted from MediaPulse our configurable triggers and workflows.

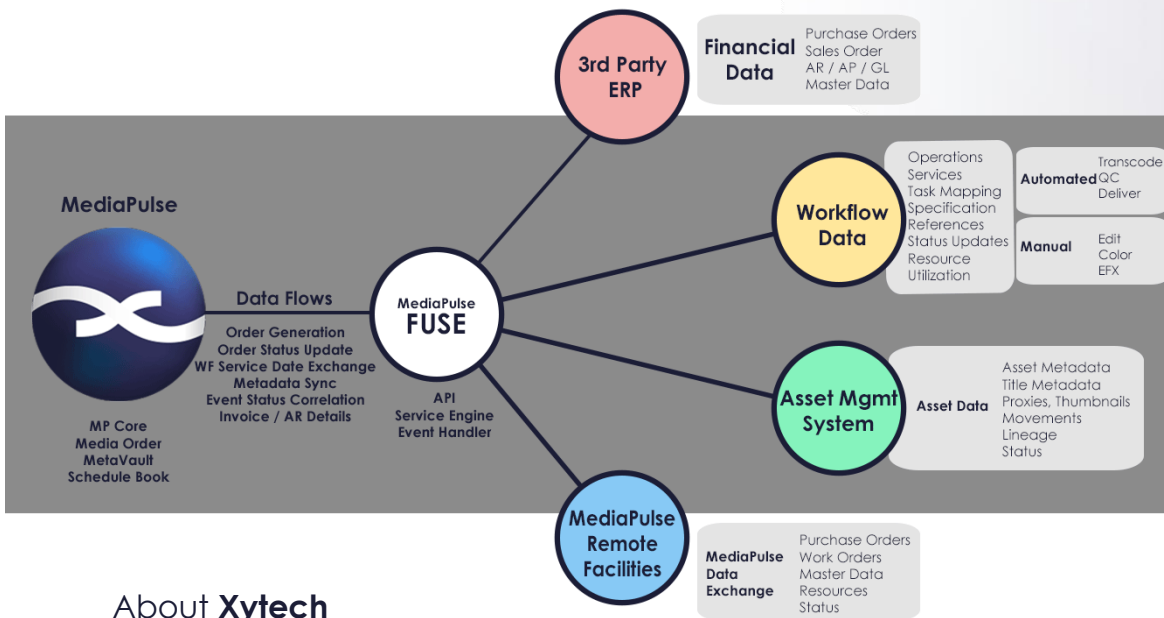

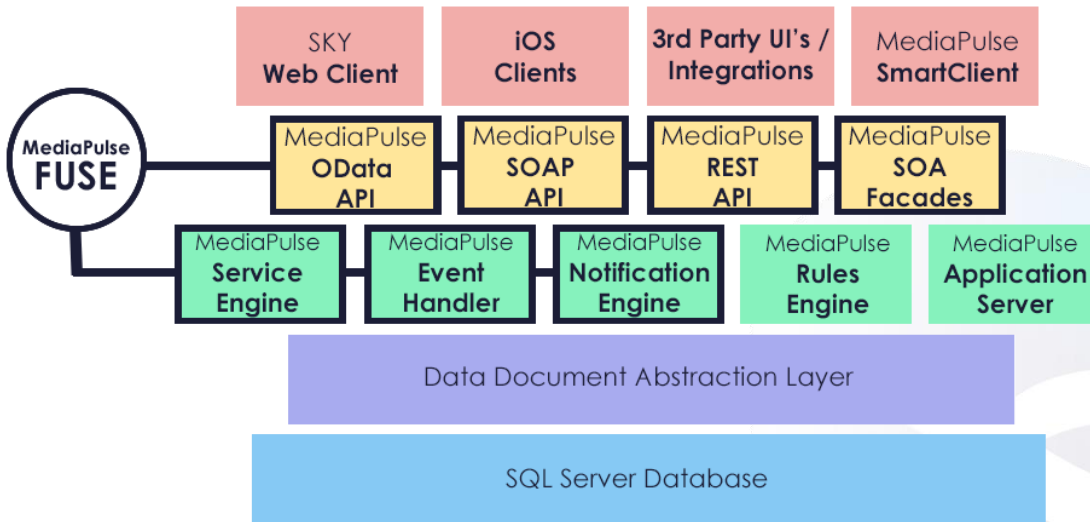

Adapters

While integrations can be easily configured by our clients, Xytech can deliver either off the shelf or custom adapters to other systems. This decreases delivery cycles, reduces costs and increases efficiency.

List of Integrated Systems

- Telestream
- Signiant
- Aspera
- Cerify
- Backlot
- Sony Navigator X
- QuickBooks
- Imagine Video Router
- Vidispine
- Baton
- Imagine Transcoders
